## IN-LIEU-FEE (ILF) PROJECT DATA WORKSHEET

DEP Invoice # 58

*[Note: Will be filled in by ILF Administrator in Augusta]*

Project name: Hammond Lumber Company-Bangor Expansion

Applicant (s): Hammond Lumber Company

DEP/Corps permit #: NAE-2005-2842

*[Note: Please attach a PDF copy of the permit]*

ILF Contribution Amount \$11,828.92

*[Note: Please attach a PDF copy of the check]*

Project address: off Hammond Street/U.S. Route 2, Bangor, ME

*[Note: Please attach a PDF map of project location]*

Biophysical region: Central Maine Embayment Subsection

Size of total impact subject to compensation: 4,051 sq ft

Resources Impacted: *[The resource table on page 2 MUST be filled in with all resource types impacted, amounts and functions.]*

DEP/Corps Project manager: Shawn Mahaney

Note: The ILF Project Data Worksheet must be filled out by the PM within 3 days of receiving a contribution to the "Natural Resource Mitigation Fund" and faxed along with a copy of the check to James Cassida in Augusta at 287-7826. The distribution of ILF contributions is time sensitive.

The PM should also double check to make sure that the check has been routed to Augusta with the correct account number reference. The account # for the ILF program is 014.06A.1776.14

## Resource(s) Impacted:

**Resource Type:** (Wetlands by NWI Type (PFO, PSS, M1, M2, E1, E2, etc), significant vernal pool (SVP), shorebird feeding & staging habitat (Shorebird), inland waterfowl & wading bird habitat (IWWH), tidal waterfowl & wading habitat (TWWH), and river, stream, or brook (RSB).

**Wetland Functions & Values:** Groundwater recharge/discharge (GWR); floodflow alterations (FF); fish & shellfish habitat (FSH); sediment toxicant retention (STR); nutrient removal (NR); production export (PE); sediment/shoreline stabilization (SS); wildlife habitat (WH); recreation (R); education/scientific value (ESV); uniqueness/heritage (UH); and visual quality/aesthetics (VQ).

**Types of impacts:** may include filling, dredging, vegetation conversion (e.g. forested to shrub/scrub), others.

Resource type (list all that apply)	Functions (for wetland impacts) (list all that apply, by resource type)	Type of Impact (by resource type)	Sq Feet Impacted (by resource type)
PSS	FF, & WH	filling	1.27 acres
<b>Total square feet impacted</b>			1.27 acres

CORPS PERMIT # NAE-2005-2842  
CORPS PGP ID# 09-366  
STATE ID# L-22359-TG-C-N

**DESCRIPTION OF WORK:**

Retain and maintain approximately 1.27 acres of freshwater wetland fill off Hammond Street at Bangor, Maine in conjunction with the expansion of an existing building supply store as shown on the attached plans entitled "Hammond Lumber Company, Hammond Lumber Site Expansion, Bangor, Maine" in fifteen (15) sheets dated "06-14-05". **SPECIAL CONDITIONS: See attached sheet.**

**LAT/LONG COORDINATES:** 44.7885144° N 68.8167561° W **USGS QUAD:** BANGOR, ME

**I. CORPS DETERMINATION:**

Based on our review of the information you provided, we have determined that your project will have only minimal individual and cumulative impacts on waters and wetlands of the United States. **Your work is therefore authorized by the U.S. Army Corps of Engineers under the enclosed Federal Permit, the Maine Programmatic General Permit (PGP). This is your Corps Permit.**

You must perform the activity authorized herein in compliance with all the terms and conditions of the PGP [including any attached Additional Conditions and any conditions placed on the State 401 Water Quality Certification including any required mitigation]. Please review the enclosed PGP carefully, including the PGP conditions beginning on page 7, to familiarize yourself with its contents. You are responsible for complying with all of the PGP requirements; therefore you should be certain that whoever does the work fully understands all of the conditions. You may wish to discuss the conditions of this authorization with your contractor to ensure the contractor can accomplish the work in a manner that conforms to all requirements.

If you change the plans or construction methods for work within our jurisdiction, please contact us immediately to discuss modification of this authorization. This office must approve any changes before you undertake them.

Condition 38 of the PGP (page 15) provides one year for completion of work that has commenced or is under contract to commence prior to the expiration of the PGP on October 11, 2010. You will need to apply for reauthorization for any work within Corps jurisdiction that is not completed by October 11, 2011.

This authorization presumes the work shown on your plans noted above is in waters of the U.S. Should you desire to appeal our jurisdiction, please submit a request for an approved jurisdictional determination in writing to the undersigned.

No work may be started unless and until all other required local, State and Federal licenses and permits have been obtained. **This includes but is not limited to a Flood Hazard Development Permit issued by the town if necessary.** Also, this permit requires you to return a signed Compliance Certification Form within one month following the completion of the authorized work. (For projects requiring mitigation, be sure to include the MITIGATION WORK START FORM).

**SPECIAL CONDITIONS FOR  
DEPARTMENT OF THE ARMY  
PROGRAMMATIC GENERAL PERMIT  
NO. NAE-2005-2842**

1. The permittee shall ensure that a copy of this permit is at the work site whenever work is being performed and that all personnel performing work at the site of the work authorized by this permit are fully aware of the terms and conditions of the permit. This permit, including its drawings and any appendices and other attachments, shall be made a part of any and all contracts and sub-contracts for work which affects areas of Corps of Engineers' jurisdiction at the site of the work authorized by this permit. This shall be done by including the entire permit in the specifications for the work. If the permit is issued after construction specifications but before receipt of bids or quotes, the entire permit shall be included as an addendum to the specifications. The term "entire permit" includes permit amendments. Although the permittee may assign various aspects of the work to different contractors or sub-contractors, all contractors and sub-contractors shall be obligated by contract to comply with all environmental protection provisions of the entire permit, and no contract or sub-contract shall require or allow unauthorized work in areas of Corps of Engineers jurisdiction.
2. Adequate sedimentation and erosion control devices, such as geo-textile silt fences or other devices capable of filtering the fines involved, shall be installed and properly maintained to minimize adverse impacts on waters and wetlands during construction. These devices must be removed upon completion of work and stabilization of disturbed areas. The sediment collected by these devices must also be removed and placed upland, in a manner that will prevent its later erosion and transport to a waterway or wetland.
3. This permit authorizes impacts to only those areas of wetlands/waterway shown on the attached plans. No other filling, clearing or other disturbance in waters of the United States shall occur without the necessary authorization from the Corps.
4. Mitigation shall be performed in accordance with the attached mitigation plan entitled, "U.S. Army Corps of Engineers After-the-Fact Programmatic General Permit Application, Hammond Lumber Company, Bangor, Maine, Wetland Compensation Plan" and dated "September 2009".
5. The preservation areas contained in the mitigation plan and required by Condition 4 above shall be protected in perpetuity from future development. The permittee shall execute and record a conservation easement with the registry of deeds for Penobscot County and the State of Maine within 180 days of the date of this permit issuance. Before recording these documents a draft copy of the conservation easements must be sent to the Corps of Engineers for approval, in writing. Upon receipt of the approved document, the permittee shall then execute and record it with the registry of deeds having jurisdiction over the locales where the site or sites are located. A copy of the executed and recorded document must be sent to this office within 30 days of the date it was recorded. The conservation easements shall enable the site or sites to be protected in perpetuity from any future development. The conservation easements shall expressly allow for the creation, restoration, remediation and monitoring activities required by this permit on the site or sites. It shall prohibit all other filling, clearing, and other disturbances (including vehicle access) on these sites except for activities explicitly authorized by the Corps of Engineers in these approved documents.
6. Your responsibility to complete the required compensatory mitigation as set forth in Special Condition 4 will not be considered fulfilled until you have demonstrated mitigation success and have received written verification from the U.S. Army Corps of Engineers. The term 'mitigation success' means success as defined in the mitigation plan this permit requires you to implement. Demonstration of success under this permit shall consist of the required mitigation monitoring, corrective measures, submittal of mitigation monitoring reports, and a final wetland assessment.
7. Except where stated otherwise, reports, drawings, correspondence and any other submittals required by this permit shall be marked with the words "Permit No. NAE-2005-2842" and shall be addressed to "Policy Analysis and Technical Support Branch, CENAE-R, U.S. Army Corps of Engineers, 696 Virginia Road, Concord, MA 01742-2751." Documents which are not marked and addressed in this manner may not reach their intended destination and do not comply with the requirements of this permit.
8. Mitigation shall consist of payment of \$11,828.92 to the Natural Resource Mitigation Fund. The Corps will provide a completed ILF Project Data Worksheet which must be mailed with a cashiers check or bank draft, made out to "Treasurer, State of Maine", with the permit number noted on the check. The check and worksheet should be mailed to: MEDEP, Attn: ILF PROGRAM ADMINISTRATOR, State House Station 17, Augusta, ME 04333. **This authorization (permit) is not valid until the permittee provides the Corps with a copy of the check, with the permit number noted on the check.** The ILF amount is only valid for a period of one year from the date on the authorization letter. After that time, the project would need to be reevaluated and a new amount determined.
9. This authorization requires you to complete and return the enclosed Compliance Certification Form within one month following the completion of the authorized work and any required mitigation (but not mitigation monitoring, which requires separate submittals).
